Portfolio

searchTree (Rails, React, Redux): Single-page community driven question and answer web app

- Uses various React Lifecycle methods to ensure dynamic rendering of components
- Uses polymorphic associations to create votes on posts, it DRYs the code and makes the app more efficient
- Uses Rails Active Record query to enable search for specific topics or key words
- Features back end user authentication, created with BCrypt in Rails
- Uses CSS Grid and HTML5 to ensure clean design

Bubble Party(JavaScript, Canvas, HTML5, CSS3, Webpack, Firebase): A game inspired by Bubble Shooter

- Aim and shoot bubbles
- Three or more adjacent bubbles of the same color create a cluster and drop when shot
- Game is over when a bubble reaches the bottom of the game area
- Start, quit or pause game at any time
